VOL. XVI, NO. 41.

THE BLAIRMORE ENTERPRISE THURSDAY, OCTOBER 6, 1925.

\$2.00 PER ANNUM

**CHURCH OF ENGLAND**  
St. Luke's church, Sunday, October 19th, Trinity XVIII.  
11 a.m.—Holy Communion.  
2.30 p.m.—The Catechism.  
7 p.m.—Evening Service.  
Mrs. James, of Calgary, president of the Calgary Diocesan Women's Auxiliary of the Mission Society, will give an address after the evening service.

H. Laurence Nobbs,  
Priest-in-charge.

## LIBERAL MEETING FRIDAY NIGHT

A public meeting will be held in the opera house on Friday night, commencing at 8 o'clock, to be addressed by the Hon. Charles Stewart, minister of the interior, Mr. T. C. Milnes, the Liberal candidate for the Macleod constituency, and others.

Mayor Burns, of Coleman, was a visitor to The Enterprise on Tuesday.

## MEASURING PARTY A RUDE SUCCESS

The measuring party held by the Pythian Sisters on Friday night last was one of the biggest successes of the season. About eighty persons were in attendance, measuring anywhere from four feet to eight feet in height and to the extremes in which admission fees were regulated by five cents a foot, plus one cent per inch over.

An interesting feature was the guessing competition, in which each couple was handed a sheet of paper bearing thirty subjects. Articles to represent each subject were spread around the room on chairs, and a limited amount of time was allowed in which to complete the list. Mr. Thompson and Miss M. E. Mayle were winners of the first prize, with a correct list. Mr. Thompson receiving a pipe and Miss Mayle a set of ear drops. The boobies were won by Mr. Lorne and Miss Marion Ennis.

Tables were set and laden with practically everything a human being should or might undertake to eat, and anything from blather skis to Scotch scones were there to tempt the ravenous. The climax came when W. Lord, senior, attempted to take in a hipped herring of the Newfoundland type. Mr. Lord knew nothing of how the great fish was to be handled and in an attempt to cram the thing in sideways his head came very near telegraphing.

Following the supper, dancing was indulged in, interspersed with the singing of popular choruses. Mason supplied the accompaniment.

The new Raymond sugar factory will open about October 14th.

The afternoon of Thursday, October 29th (election day), has been declared a half holiday throughout the Dominion of Canada, to enable all voters to cast their vote in the Dominion election. An order-in-council, granting the half holiday, was signed by the governor-general on Saturday afternoon last.

## CROW'S NEST PASS MUSICAL FESTIVAL

At a meeting held in the Greenhill hotel on the night of September 29th, the Crow's Nest Pass Musical Festival was organized for 1926, with the following officers:

President—W. Thomas.  
Vice-President—Moses Johnson.  
Secretary-Treasurer—Rev. W. T. Young.  
Executive—Mrs. D. J. Mackenzie, Mrs. S. Bannan, Mr. Harris and Mr. Meyer.

Finance Committee—Mr. W. Thomas, Mr. M. Johnson and Mr. L. L. Morgan.

The following were appointed from the different communities in the district to represent the festival committees by giving out information and advancing the festival interests generally in their own community: Miss Jackson, Pincher Creek; Mr. Harris, Bellevue; Mr. F. J. Smith and Mr. Toles, Hillcrest; Rev. D. K. Allan and Mr. Joseph Emmerson, Coleman.

It was decided to hold the next festival on April 9th and 6th, 1926. That all who enter, except in open events, must be bona fide Sunday School scholars, having been members of their Sunday school from January 1st, 1925. That the territory be from Macleod, Alberta, to Natal, B.C., both inclusive. That all registrations be handed to the secretary not later than March 1st, 1926. That competitions be held in the following: piano, violin, vocal, choir, singing and orchestras, recitations in junior and senior classes.

The method chosen for securing music for the several competitions was as follows: In piano, that Mrs. Dr. Donald and Miss Jackson and Brown, teachers in piano, be asked to choose two pieces for each competition, the final choice to be made from these six suggestions. In violin, that Messrs. Moore and Harris, teachers in violin, be asked to turn in selections for each competition, and in vocal, Miss McGill and others interested in vocal training be asked to make suggestions regarding each competition in that class. In recitations, that Messrs. Thomas and Chapell be a committee to choose material for these competitions. Orchestras, that Messrs. Upton, Moser and Harris be a committee to choose music for this competition.

It was decided that should the entries in any group be too large, the committee have power to divide into junior and senior, according to age.

## LECTURES ON SOCIAL HYGIENE

Mr. E. T. Cook, of the provincial health department, will show moving pictures and will lecture on "Social Hygiene" in the Pass towns on the following dates: Blairmore the 9th, Bellevue the 8th, Hillcrest the 12th, and Coleman the 16th.

Mr. Cook deals with questions of vital interest to both men and women in a way that is sane, wholesome and inspirational.

Senior boys and girls are invited to their respective meetings and parents should encourage them to attend. The lectures are free.

The meetings at Blairmore will be, for men and boys, Friday evening, the 9th, at 8 p.m., in the United church. For women and girls, Saturday evening at 8 p.m. At Bellevue, for women and girls, on Thursday, the 8th, at 3 p.m.; for men and boys at 8 p.m. At Hillcrest on Monday, the 12th, at 3 p.m., for women and girls; and for men and boys at 8 p.m., in the hall. At Coleman, on Friday, the 16th, at 3 p.m., for women and girls; for men and boys at 8 p.m., in the Parish Hall.

The members of Crowview Rebekah Lodge are holding a sale of work and tea in the Lodge Hall on Thursday, October 22nd, from 2 to 6 p.m. Further particulars will be announced next week.

## DUNKLEY-GRESHAM NUPTIALS

A pretty wedding ceremony took place at the United church on Thursday afternoon last, when Miss Bertha Louise, only daughter of Mr. and Mrs. J. W. Gresham, became the bride of Mr. Lewis Dunkley, son of Mr. and Mrs. W. W. Dunkley, of Calgary. The bride, who was attended by Miss Irene Dillingham, of Innisfail, was given in marriage by her father. She wore a gown of white satin trimmed with white georgette and swan-down, and carried a bouquet of pink roses and carnations. The bridesmaid was attired in apricot crepe de chene trimmed in grey and carried a bouquet of white chrysanthemums. J. R. Gresham, brother of the bride, acted as best man. A reception was held after the ceremony at the home of the bride, following which the happy couple left on the evening train for Lethbridge where they spent a short honeymoon.

Mr. John Hall, vendor, returned this morning from a brief visit to Edmonton.

## MASONIC DISTRICT MEETING HELD AT PINCHER CREEK

About forty-five delegates, and members of the Masonic Order journeyed to Pincher Creek on Tuesday to attend the district meeting. They harnessed a special motor train for the trip and report having had an excellent time.

About 125 were in attendance, including representatives from Coleman, Blairmore, Hillcrest, Cowley and Bellevue.

Grand officers present were: N. E. Carruthers, grand master; S. Y. Taylor, grand secretary, and G. E. Crutekbank, grand senior warden.

## "TEN COMMANDMENTS" NOVEMBER 25TH

The manager of the local Orpheum Theatre advises that the "Ten Commandments" is booked up so that he cannot secure the pictures for Blairmore before late in November, probably the 28th.

I.O.O.F. Ball, Friday, October 16th.

## BAREE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.  
"BAREE, SON OF KAZAN," a Whirlwind Picture, With Wolf, the War Dog.  
The story of the adaptation of this story.

### SYNOPSIS

Bush McGarrig, the factor of Post MacLean, a brutal and unscrupulous scheme, was determined to marry Nepeese, the beautiful Indian "princess," daughter of Pierrot, the trapper. He had tried of Marie, the slim Cree girl who had been his companion. McGarrig's advances were distasteful to Nepeese and aroused the enmity of her father, as the conscienceless factor plotted to do away with Pierrot, it necessary, to win his daughter for himself.

### CHAPTER XI—Continued.

"He chuckled again as he made his way through the darkness to the door. Nepeese sat good as before to him. He would have her if it cost—Pierrot's life. And why not? It was all so easy. A shot on a lonely trap line, a single knife-thrust, and he would know? Who would guess where Pierrot had gone? And it would be all Pierrot's fault. For the last time he had seen Pierrot, he had made an honest proposition, he would marry Nepeese. Yes, even that. He had told Pierrot so. He had told Pierrot that when the latter was his father-in-law, he would pay him double price for furs.

And Pierrot had stared—had stared with that strange, stunned look in his eyes, like a man struck by a blow from a club. And so it had not got Nepeese without trouble it would all be Pierrot's fault. To-morrow McGarrig would start again for the half-breed's country. And the next day Pierrot would have an answer. Bush McGarrig chuckled again when a door opened.

Until the next to the last day Pierrot said nothing to Nepeese about what had passed between him and the factor at Lac John. "Then,"

"He is a beast—a man-devil," he said, when he had finished. "I would rather see you out there—with her dead." And he pointed to the tall spruce under which the princess mother lay.

Nepeese had not uttered a sound. But her eyes had grown bigger and darker, and there was a flush in her cheeks which Pierrot had never seen there before. She stood up when he had done, and she seemed taller to him. Never had she looked quite so much like a woman, and Pierrot's eyes were deep-shadowed with fear and uneasiness as he watched her while she passed off into the northwest toward Lac John.

She was wonderful, this slip of a girl—woman. Her beauty troubled him. He had seen the look in Bush McGarrig's eyes. He had heard the thrill

## MRS. D. H. HART SICK FOR YEARS

Wants Women to Know How She Was Made Well by Lydia E. Pinkham's Vegetable Compound

Cornwall, Ontario. "I am now giving your medicine a fair trial and it surely is doing me good and I am going to keep on taking it—I used to feel so miserable in the morning that I didn't want to get up, but that feeling is leaving me now. I also sleep better and feel more like a woman. Five years or eight years I have had headache, dizziness, pain in my back and across my body. I read letters in the newspapers saying that good Lydia E. Pinkham's Vegetable Compound had cured others. My husband said I was too soon, but I am not going to stop taking the Vegetable Compound and Lydia E. Pinkham's Medicine. I feel I am better and haven't an ache or a pain. Isn't that the right way? I have great faith in your medicine. It must be good when those who take them speak so highly of it. I am recommending them to my friends and I will gladly answer letters from women asking about them."—Miss D. H. HART, Box 100, Cornwall, Ontario.

Mrs. Hart wants to help other women who are willing to read letters from sick women asking about the Vegetable Compound.

W. N. U. 1297

### Most Northerly Police Post

Will Be Constructed Next Year on Ellesmere Island

The world's most northerly police post and also the most remote of any human habitation, is to be constructed next year for the Royal Canadian Mounted Police at the far end of Ellesmere Island. Building materials and two years' supplies have been cached within easy reaching distance of the post. Three men will be detailed to patrol duty on the indescribably lonely shore of Rice Strait.

SEAL TIGHT KEYS

1127

plunge moment or two of hesitation he dared upon his prey.

McGarrig had heard no sound, for the snare into which Wapoose had run his head was the one set farthest from the camp. Besides, the smoldering coals of his fire lit with his back to a tree, smoking his black pipe and dreaming contentedly of Nepeese, when Baree continued his silent wandering. Baree no longer had the desire to hunt. He was too full. But he needed to get out of the stultic apathy, enjoying immensely the stillness and the golden glow of the night. He was following a rabbit run, when he came to a place where two fallen logs left a trail no wider than his body. He squeezed through; something tightened about his neck; there was a sudden snap—a snarl as the snail was released from its "trigger." And Baree was jerked off his feet so suddenly that he had no time to conjecture as to what was happening.

The yelp in his throat died in a gurgle, and the next moment he was going through the pantomimic actions of Wapoose, who was having his vengeance inside him. For the life of him—Baree could not keep from dancing about, while the wire grew tighter and tighter about his neck. When he snarled at the wire and flung the weight of his body to the ground in a vain would break obligingly, and then—in a rebound—would yank him for an instant completely off the earth. Furiously he struggled.

It was a miracle that the wire wire held him. In a few moments more it must have broken. McGarrig heard him. The factor caught up his blanket and a heavy stick as he hurried toward the snare. It was not a rabbit making those sounds—he knew that. Perhaps a fisher-cat—a lynx, a fox, a young wolf.

It was the wolf he thought of first when he saw Baree at the end of the wire. He dropped the blanket and rushed the club. If there had been clouds overhead, or the stars had been less brilliant, Baree would have died as surely as Wapoose had died. With the club raised over his head McGarrig saw in time the white star, the white-tipped ear, and the jet-black of Baree's coat.

With a swift movement he exchanged the club for the blanket. In that both, McGarrig had looked ahead to the days that were to come, he would have used the club.

### CHAPTER XII.

Half an hour later Bush McGarrig's fire was burning brightly again. The eyes of "Baree" were turned up like an Indian Nepeese, tied into a ball-shaped ball with bubbles, then his head alone showing where his snail had cut a hole for it in the blanket. He was hopelessly caught—so closely imprisoned in his blanket that he could scarcely move a muscle of his body. A few feet away from him McGarrig was watching a bleeding hand in a basin of water. There was also a red streak down the side of McGarrig's blanket neck.

"You little devil," he snarled at Baree. "You little devil!"

He reached over suddenly and gave Baree's head a vicious blow with his heavy hand.

"I ought to beat your brains out—and I believe I will!"

(To be continued)

Wapoose, the rabbit, had run his furry head into the snare, and his first frightened jump had "shot" the snail to which the coyote who was attached so that he was now hung half in midair, with only his hind feet touching the ground. And there he was dancing madly while the noose about his neck slowly choked him to death.

Baree gave a short snarl. He could understand nothing of the part that the wire and the snail were playing in this curious game. All he could see was that Wapoose was hopping and dancing about on his hind legs in a most panting and unparalytic fashion. It may be that he thought it some sort of play. In this instance, however, he did not regard Wapoose as he had looked on "Unk" the beaver. He knew that Wapoose made mighty fine calling, and after an

### Raised Town Five Feet

Odd Engineering Feat Has Been Accomplished at Northwich, England

Shifting houses tidily several miles, and towns some yards along the level, has often been done, but raising a town five feet is something new. This is claimed to have been accomplished by the surveyor of Northwich, England, in just under three years. The entire business portion of Northwich, including ten streets, three banks, the court, court, and 391 stores and houses, have been raised to counteract the effect of subsidence caused by the brine pumping which proceeds continually in the salt mines under the town.

There has been no stoppage of business and only eight buildings, including an ancient inn, have had to be demolished because they could not be safely lifted.

In raising operations, parts of the lower brickwork were removed and small hydraulic jacks inserted. Chemical stores were lifted so carefully that not one bottle was disturbed. The town bridge was raised five feet at each end to bring it up to the new level of the town.

### "DIAMOND DYES" COLOR THINGS NEW

Just Dip to Tint or Boll to Dye

Each 15-cent package contains directions so simple, any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

The Westward Flow  
—Vancouver hopes to ship 100,000,000 bushels of this year's crop. This would about double the city's record in grain shipments. Six years ago Vancouver was not shipping a bushel of grain.

Other cities on the coast will participate in grain shipments as they acquire the necessary facilities. "Little use the Panama Canal and the awakening of the Orient change the flow of trade.—Financial Post.

### MAKE CARE OF BABIES EASIER

Baby's Own Tablets Are a Great Help to Mothers of Young Children

Stomach disturbances and constipation are responsible for much of the peevishness of babies. The modern mother does not resort to so-called soothing mixtures but corrects the trouble by administering the little stomach and giving a gentle laxative that acts without griping. Such a remedy is found in Baby's Own Tablets, easy to take and guaranteed to be free from opiates or narcotics.

Every mother who tries Baby's Own Tablets becomes enthusiastic about them. Mrs. Oscar Auger, Holyoke, Mass., says: "I have used Baby's Own Tablets and think them a splendid medicine for constipation and other ailments which affect little ones. I have no hesitation in recommending them to other mothers." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont. A little booklet, "Care of the Baby in Health and Sickness," will be sent free to any mother on request.

Many Rural Phones  
According to the annual report of the government telephone service, there are two rural telephone subscribers to every grain subscriber in the province of Saskatchewan, a situation which is found in only four states in the United States.

To have the children sound and healthy is the first goal of mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

"Why were you so willing to send your wife back to her old home town for a child?"

"Oh, I wanted her to get a good look at some of the men she could have married."

A man's features may be stamped on a girl's heart, but it's her complexion that looks up on his coat collar.

You can't judge the size of a man's heart by the amount of noise he makes.

### No Recipe For Longevity

Centenarian in England Has Never Had a Day's Illness

Not one single day's illness has been experienced by John Large, of Hampton-in-Arden, England, who has celebrated his hundredth birthday. He has no recipe for longevity. "With me," he confesses, "it just happened, and I don't know how. Maybe it's because I never learned to smoke. Maybe, it's because I never made it a rule never to drink more than one glass of beer at once."

Mr. Large is one of two twos, his brother living until he was 79. He started work at fourteen in London, whither he travelled by coach, and has been many things in his time, including stationmaster and farmer. Eight of his nine children are living, the eldest being 72 and the youngest 63. He says he can still "walk some of his youngsters off their legs."

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

### Child Immigration

Commissioner Lamb urges Canadians to Adopt English Children

Advocating the adoption by Canadians of young English children, Commissioner David Lamb, of the Salvation Army, in an interview in Toronto, stated that there was a great number of young children, perfectly healthy, whom England could send out to the Dominion.

Commissioner Lamb is in charge of the Salvation Army's immigration and social work all over the world, and he is touring Canada conferring with provincial governments in the interests of a greater influx of English people.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Eucalypti Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand as the call for it may come most unexpectedly.

An inn sign painted on the blade-point of a whale's tusk is one of the curiosities of Haughton, Suffolk.

Mina's Lintment for Sore Back.

Traffic delays in London entail a loss to the community of more than \$20,000,000 a year, says F. O. Brailow, secretary of the Commercial Motor Users' Association.

## Children Cry for

**Fletcher's CASTORIA**  
MOTHER—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying

Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

At apothecaries, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

### The Right Way to Boil Potatoes

Put the potatoes in an SMP Enamelled Potato Pot. Cover with water. Add salt to taste. Boil until soft. When finished, drain off the boiling water through the strainer upper. No danger of steam scalding the hands because the handle securely locks the cover on. If your family uses potatoes, you require one of these.

### DR. KING ON THE HOME BANK

At a recent meeting held in Fernie, Hon. Dr. King, minister of public works, expressed his views on the Home Bank situation very briefly.

He regretted very much that his political opponents had seen fit to bring the Home Bank question into politics, as it had been thoroughly understood by all concerned that it would be to the best interests of the depositors to keep the issue from politics. However, now that the issue had been raised by the opposition, Dr. King stated he was prepared to accept the challenge and stand by his record here and at Ottawa on Home Bank matters from the day of the bank failure up to the passage of the bill through the house.

Dealing with the question raised by Mr. Stevens on Monday evening, as to why the government had brought in a bill limiting the amount of relief to be paid depositors to 35 per cent, Dr. King explained that the support of the Liberal party had not come from the west. The government's support came largely from the Maritime provinces and Quebec, where there was only one branch of the bank and consequently the desire to compensate depositors could not be expected to be the same as in Fernie and elsewhere, where the suffering through the failure was truly realized and therefore it was not easy for the government to go beyond a certain limit. A meeting between the Depositors Committee and the Cabinet Council had been arranged and it had been mutually agreed, that considering the 25 per cent already advanced by the liquidators and the possibility of their being able to pay from 10 to 15 per cent more from the bank's assets, that if the government would pay the depositors 35 per cent of their total deposits it would be satisfactory to the depositors.

Dr. King reviewed the progress of the Home Bank relief measure through its various phases and contended that, had the compensation been awarded without discrimination, he felt satisfied the depositors would have generously accepted the 35 per cent as reasonable. The bill, as amended by the Senate, he continued, had created a most ridiculous situation. He characterized it now as class legislation, inasmuch as it had created unrest, confusion and animosity among the depositors who happened to be more thrifty than others and had more than \$500 of deposit and had to submit to investigation of their circumstances to succeed in obtaining even their 35 per cent.

The reason, he stated, that the government did not place the depositors relief measure in the estimates was that if the government had done so they would have created a most dangerous precedent and would have led to irregularities of government. The Borden government, of which Hon. Mr. Meighen was a supporter, when the question of relief for the depositors of the Farmers' Bank was before them, did not place that measure in their estimates, he added.

A child, asked why the days are longer in summer than in winter, explained it by the fact that heat expanded everything.

A man with a bad reputation was arguing about ways of spelling.  
"It's all wrong," he said, "to leave out the 'u' in words like harbour, neighbour, candour, however."

"Well," said a listener, "I'm not sure about the first two, but when it comes to candour and honour, I certainly leave you out."

### HOW TO SPEND A MILLION

A millionaire recently asked the public to tell him how to give away some of his millions. Needless to say, he got thousands of letters. But it remained for that contrary critic, George Jean Nathan, to say the most stimulating words:

"Really worthy individuals need no financial help from outsiders. I know of no first-rate man or woman in America today who needs such assistance or wants it. As for persons of potential talent and promise, money so easily come by would, in all probability, ruin them. I suggest that he keep his millions, and, like any other sensible man, buy himself excellent wines, cigars and books, enjoy them, and let the world go to hell in its own charming way."

A brutal and impractical philosophy. But it will do us good to have a few more champions of this sort of tolerance, and a little more ridicule of the craze for pampering the unfit.

A newspaper item states: "A physician was called, but she died without medical assistance."

### His Idea

After having been laid up for a very long time Uncle Tobias Feebles recovered sufficiently to be able to ride to town in his son-in-law's flivver.

"Well, how did you like it, Uncle Toke?" asked a neighbor, after they returned home.

"Pretty well, thank you, Addison," replied the ancient nag. "But I was right sorry to see that they had had a terrible epidemic of typhoid fever—nearly eight of the women folk had their hair cut off."

### EIGHT-CENT STAMP ISSUED AT OTTAWA

A new Canadian stamp of eight-cent denomination went into use on October 1st, following a decision reached at the recent international postal conference, held at Stockholm, to the effect that the postage rate on letters between countries of the union should be reduced from ten to eight cents.

This stamp is of the same design

as the other Canadian postage stamps and will be blue in color.

The post office department is also about to issue the first of a series of Canadian historical stamps. The new issues will be two in number—one containing the portrait of Baldwin and Lafontaine, and the second containing the portraits of Sir Wilfrid Laurier and Sir John A. MacDonal.

Mr. and Mrs. H. Seyan will leave shortly for California, via motor.

As a result of the hit and miss arrangement for placing signs along detours this year where new grade construction has made the detours necessary, the highways branch of the government will next year take on all this road marking. Standard signs are being drafted for the 1926 road marking, a master sign to be placed at each end of new grade construction, denoting that these signs are fixed by the government and from these detour arrows will be placed at intervals and at all turns on the road leading round the section under construction. Government officials admit that the system of marking detours and erecting barriers this year has been haphazard and unsatisfactory.

The Staveland Advertiser is boosting inch and the fee would have been 26 for the establishment of an hotel at cents. However, with his shoes off, Staveland puts in a word for Mr. he measured four feet eleven inches D. C. Drain, of Blairmore, as a choice and the fee exacted was 31 cents for manager. Staveland sure needs the Even the Scotch got soaked some times.

## THE TEACHING PROFESSION

An eastern newspaper quotes a school teacher as saying, after retiring from forty years of service with a wealth of happy experiences: "For one who loves it, teaching is a wonderful career. But for one who is fitted for the work, it can become a hell on earth."

This is doubtless true of teaching and more than most callings, because the demands it makes are so great that only a great fitness or a great devotion can render them endurable.

At the measuring party on Friday night, a Scotchman took off his shoes to get measured, hoping to save a cent thereby. With his shoes on he would have measured five feet one inch and the fee would have been 26 cents.

## HILLCREST HAPPENINGS

The Sunday School scholars are busy preparing themselves for the Rally Day.

So far the Dominion election on October 20th is not causing much excitement in Hillcrest.

The Union hotel will, when changes and renovation is completed, look like an entirely new building.

The infant son of Mr. and Mrs. James Smith, of Peaceful Valley, passed away on Thursday, October 2nd last.

Joe Royle, who had to return from Clarendon to undergo an operation for appendicitis, is doing as well as can be expected.

The regular meeting of Turtle Mountain Lodge No. 15, Knights of Pythias, was held in the Castle Hall on Tuesday night.

Charlie Makin, who was accidentally shot three weeks ago, is making a marvelous recovery under the care of Dr. Rose. He expects to leave the hospital in a few days.

Hillcrest can now boast of a first-class and up-to-date post office, which was opened by the general postmaster, Mr. W. A. Atkinson and his able assistant, Miss Bessie Atkinson. It is situated on Main Street, between the Palm Cafe and White's barber shop.

Miss Irene May left here on Sunday night's train for Calgary, to enter normal school, having been successful in passing the necessary grade at the last examination. This marks two from Hillcrest who have entered normal this term, Chesley Carter and Miss May.

Hillcrest is just now receiving quite a number of regular visits from Jack O'Neill and W. J. Bartlett, of Blairmore, for some reason or other—may be it is for a little more excitement that cannot be found in their home town. No doubt in the near future we shall see the main offices of Burns & Company and The Enterprise printing works transferred to Hillcrest.

## MOVING AHEAD

Women are an inch or two nearer to equality than they were a year ago, says a committee of the Bar Association which has been collecting the state laws recently passed. Women may now serve on juries in Louisiana.

Several states were so daring as to give women equal rights with men in guardianship. And New York State set up the principle of equal pay for equal work on the part of school teachers of either sex.

Men and women are different by nature, but we no longer think it necessary to handicap weakness by discriminatory laws—Collier's Weekly.

## Questions and Answers

Question: "Tell me how long girls should be loved?"

Answer: "Same as short ones."

Question: "On what side is one's bread really buttered?"

Answer: "Drop it and you'll always find it's the bottom side."

Question: "What's pasteurized milk?"

Answer: "Milk from cows that have been out to pasture."

Question: "Why do old maids wear cotton gloves?"

Answer: "Because they have no kids."

Question: "Should there be more clubs for women?"

Answer: "Good gracious, no! Try kindness first."

Question: "What's overhead expense?"

Answer: "Hair nets."

A gentleman on a motoring tour stopped to replace a tire on a desolate part of the Highlands. A native chanced along and helped. "I suppose," said the tourist, "that even here the bare necessities of life have risen tremendously in price." "Aye, ye're right," replied the Scot, "and it's no' worth drinkin' when ye get in."

## COWLEY HAPPENINGS

Bad weather still continues, with snow falling today.

Mr. and Mrs. Scottar were weekend visitors to Lethbridge.

Mr. and Mrs. Thompson are receiving congratulations on the birth of a son.

Miss Gladys Baines, of the Royal Bank, Finch Creek, was a visitor here on Sunday last.

Arthur Brockwell has gone to Calgary, where he will stay in a sanatorium for a few weeks, we understand.

The next meeting of the Women's Institute will be held at the home of Mrs. Archie Swart on Thursday evening, October 22nd, at 8 o'clock.

We regret to say that Dick Alexander received word by telegram from Ontario that his brother has been shot and killed. We join in sympathy for Dick.

While playing at "Fox and Geese" in the show at school, Edmund Gwendwin had the misfortune to get one of his legs badly broken. He was immediately rushed to Fernie by motor and is getting along satisfactorily in a hospital there.

In spite of bad weather, the whist drive and dance which was held under the auspices of the Women's Institute, in aid of the Red Cross, on Friday night, was a decided success. A large crowd attended, there being sixteen tables at play. The prizes were won as follows: ladies' first, Mrs. Lionel V. M. Peel; ladies' second, Miss Marjorie Smith; gentlemen's first, H. D. MacMillan; gentlemen's second, Mr. Miller, of the Imperial Oil Company. The boobies were awarded to Miss Minnetta and Mr. Simpson. Robert Littleton donated several Hungarian partridges, which were given as special prizes.

An appetizing luncheon was served by the members of the Institute, after which dancing was indulged in for a couple of hours. Around twenty-five dollars was cleared.

## THE G.W.V.A.

The nation's solemn obligation to at least justice towards the men and dependents of men who served and who were disabled in active service, still holds good. Let us see how that obligation is being fulfilled. It is the duty of the citizen to give greater part of credit for performing this work. The Pension Commission has been very active in its obligation to consider the interests of the men sympathetically. The onus is placed on the citizen to convince the board that he is entitled to a pension or to a readjustment of pension.

It is perhaps natural that a government department should adopt this attitude of regarding applicants from the point of view of the wealth of the treasury, rather than that of sympathetic consideration. Canadian men who were disabled did owe something more than an official record, have suffered injustice under the haphazard interpretation of the Pension Act.

Disabled men have been put through severe ordeals sometimes amounting to neglect and privation; some have died for lack of attention when they were entitled to the benefits of a generous Pension Act.

The Canadian soldiers, it is quite evident, have stood in need of all the support and assistance which their own organization, the Great War Veterans' Association, could give for them. They have been well served in many thousands of cases of readjustment of pension claims and allowances by the G.W.V.A. There is practically no other national organization in Canada to plead the case for the man who, asking only for justice, cannot present the case for himself.

The Great War Veterans' Association in Canada organized a clean sweep campaign in 1921; and many cases of injustice and haphazard treatment were disposed of as the campaign progressed. It led, in fact, to the Royal Commission on pensions and re-establishment, which afterwards led to the appointment of the Federal Appeal Board.

The G.W.V.A. is probably the best medium as the soldier's advocate in Canada. It is able to take care of the men who, would otherwise never be heard from, and it should be better understood by the Canadian public that the men at the head of the G.W.V.A. are not only in Alberta but throughout the whole Dominion of Canada; are not agitators, nor noisy malcontents seeking to pillage the treasury, but men who are fighting a just cause, with no financial aid from the public, but financed entirely by themselves.

There is still much work to be done, and it is hardly a square deal to the men who served in the war to connect them to pay for it entirely from their own pockets. It is national duty to take care of them.

All soldiers' claims, and claims of

## DOMINION-WIDE CAMPAIGN TO ENLARGE INCOME TAX

A Dominion-wide campaign to have the federal income tax abolished has been launched by the Retail Trade Bureau of Canada, the head office of which is in Ottawa. Already meetings have been held in Montreal, Ottawa and other centres and the response to the call for assistance has been most encouraging.

In an interview in which he outlined the principal reasons why the Retail Trade Bureau of Canada was opposed to the continuance of the income tax, Mr. E. M. Townshend, Dominion executive director and secretary of the Bureau in Ottawa, pointed out that one of the main faults with this tax is that it is making hard and thieves out of people. "All men are not honest," he said. "If they were, they would make honest returns. Any system of taxation—I do not care where it is or what it is—that trusts the honesty of the people to put in a correct report, is fundamentally wrong. The manner in which our income tax is collected leads us directly into temptation. The amount of income tax collected during the fiscal year 1921-22 was \$101,500,000.00; in 1922-23 it was \$122,700,000.00; in 1923-24 it was only \$88,906,705.00. Now surely that proves one of two things: either the tax is killing business of the country or people are learning how to dodge it."

While it is not to be happening among the agricultural class:

In 1918-19 4,971 paid \$ 350,111.00  
In 1919-20 3,477 paid 498,111.00  
In 1920-21 10,598 paid 562,597.00  
In 1921-22 18,841 paid 1,289,104.00  
In 1922-23 8,220 paid 473,043.90  
In 1923-24 4,053 paid 273,956.00

"During a period of five years the farmers have paid \$3,108,489.00; the professional people paid \$11,253,385.00; the merchants paid \$24,908,753.00; the manufacturers (not including their surpluses) paid \$9,080,564.00; and the employees—this is an example of the unfairness of things—the employee is given a form to fill in; the government is not going to take any chance with him so they send the form to the employers to have it completed, consequently they have got all these employees doubly tied up; and the employees of this country cannot get to the government during the five-year period \$41,467,780.00."

"Please do not get the idea that I am opposed to the payment of taxes. I think we all ought to pay taxes, but I am opposed to an unfair system of taxation. The income tax is the most unjust tax that was ever placed upon humanity."

"While business does not seem to realize it, it is the consumer who is paying this tax and who ought to be the most interested party in any campaign to have it abolished. The man who buys the article last in the one who pays all the taxes. True, the tax is put on the retail merchant and if he is a business man the tax will go into his coat. Then the consumer comes along and pays it, and when the consumers pay these taxes how can they be expected to pay their bills?"

"Here is another thing that is happening. Men are taking their money out of business and investing it in war bonds that are not taxed, or they are investing it in other countries and they are leaving in their trail thousands of unemployed. You can't choose out of enterprise and energy without producing the very result that you do not want. The manufacturer who produces a million dollars has no more right to pay \$650,000.00 to the government than I would have to pay \$150,000.00 or \$200,000.00 if I only made \$5000.00."

"The Citizens' Research Institute of Canada is convinced, after carefully studying the question, and from the experience of other countries, that considerable reduction in taxation can be effected without lessening the quality of governmental service or the ability of our governments to meet their outstanding obligations. The Institute also believes that such reductions would result in greatly increased prosperity to the citizens of Canada, and they are right."

"If the sales tax goes on increasing the way it has started out this year we will have enough revenue from it to be able to remove the income tax altogether. We are also getting a lot of money from the tariff and you can not do the sales tax. This is why I favor them."

"The reason the Retail Trade Bureau of Canada has undertaken this campaign to have the income tax abolished is because it is one of the greatest offenders because it is an outstanding interference with trade."

## Cross Word Puzzle

Three-letter word meaning forty-eight cents worth of material made into a thirty-five dollar feminine head covering.

## Meeting and Parting

They met by chance.  
They never met before,  
They met that once,  
And she was smitten sore.

They never met again—  
Don't want to, I avow—  
They met that once,  
'Twas a freight train and a cow.

dependants of soldiers, are dealt with sympathetically; and at the same time the government has no better ally than the G.W.V.A. against impostors and "lead-pipe" men. The public is indebted to the returned men themselves who have been organized by the desire to serve. Such an organization means much to Canada, and the returned men cannot but be proud to align themselves with the spirit of the G.W.V.A. movement. The G.W.V.A. stands for unity of all returned men today.

## DEBT FUNDING COMMISSION HAS LEFT FOR FRANCE

Washington.—The final formula of a tentative arrangement, which must be ratified by the French Government, was thrust into the breach to prevent complete collapse of the Franco-United States debt funding negotiations.

Three, one week after Finance Minister Caillaux and his associates had held down the first French proposal for funding their government's four billion dollar war debt they departed for Paris, taking with them a document intended to help to bring the cause sufficiently to assist continuity of negotiations—even at long range.

The arrangement proposed by the United States debt commission as a final move would have France pay an annuity of forty million dollars a year for five years and would enable the two governments to continue consideration of a programme of final settlement to succeed the proposed temporary pact at its expiration. Further, it contemplates that the annuity thus paid shall be in lieu of all interest on the debt during the time it shall run on an interest charge of approximately one per cent a year.

Mr. Caillaux gave United States commissioners the hope that he believed the French government would accept the agreement.

## Greatest Undersea Craft

New British Submarine Has Left For Unknown Destination

London.—The British submarine X-1, declared to be the greatest undersea craft in the world, has left Chatham naval station for an unknown destination. Great secrecy has surrounded the X-1 since her keel was laid and only a few long distance photographs of her have been revealed to the public.

It is known, however, that the X-1 cost \$4,200,000 to build, displaces 3,500 tons, is 350 feet in length, carries a crew of 121 officers and men, and is capable of remaining submerged for two and a half days and of turning without her own length. This latter accomplishment is considered of great advantage both in attack and defence against the historic more mobile divers.

The speed of the X-1 is said to be considerably greater both on the surface and under water, than that of any other submarine built. Naval men, elated at the submarine's successful trials, declare she represents a triumph for British naval engineering.

## No Bootlegging in Wheat

North Portal.—A dispatch from Winnipeg in the Regina Leader a few days ago stated that considerable Canadian wheat was being "bootlegged" across the border to U. S. points. As far as this part of the boundary is concerned it is believed by government officials that no wheat is being so handled, though the price on the U. S. side has for some time been from 10c to 12c a bushel higher.

## Nova Scotia Has Big Deficit

Halifax.—The Halifax Herald in its news columns says: "Deficit on current accounts of two millions, possibly more, a gross debt that may reach \$10,000,000; these are the figures which the Nova Scotia government has set out for the fiscal year 1925, which closed Sept. 30, according to statements by Hon. G. S. Harrington, acting premier and provincial secretary-treasurer."

## Delayed By Bad Weather

Spets, Italy.—George H. C. Smyth, Canadian canoeist paddling from Naples to Leningrad, Russia, on a water of 10,000 lbs. has been forced to put into Porto Venere, Italy, because of bad weather. Smyth left Naples August 18 on his present voyage. He recently paddled from Dover to Rome.

## No Crop Failures

Winnipeg.—Not one crop failure in the province of Manitoba during the 1925 season, is the report of the provincial department of agriculture. Wheat averages 18½ bushels to the acre and oats 44.

## To Prehe Sub Sinking

Washington.—A court of inquiry was appointed by Secretary of the Navy Willard to inquire into the sinking of the submarine S-51 off Block Island. It will meet at the Boston navy yard on October 15.

## To Vote At 82

Winnipeg.—Ninety-three years of age, Catherine Coleman has registered her name on the list of electors for the coming election.

W. J. O. 1287

## American Editors Interested

Trip Through Western Canada Described By R. J. C. Stead

Ottawa.—What proved to be most interesting to a group of American agricultural editors in a trip they took through the Canadian west, recently were the prairie flowers, the public buildings, the government experimental farm at Brandon, Man., evidence of co-operative merchandising, grain elevators, the irrigation scheme at Brooks, Alta., and the ranch of the Prince of Wales. So stated R. J. C. Stead, director of publicity for the department of immigration, in addressing the literary club here. Mr. Stead accompanied the party, or editors on their trip. The numerous crops seen enroute were also the subject of much admiration by the visitors, Mr. Stead said.

Church unions was among the matters upon which inquiries were frequently made by American editors, also the enforcement of liquor laws.

## Says Disaster Could Have Been Avoided

Accident to Shenandoah is Blamed on

Lakehurst, N.J.—The disaster to the ship Shenandoah was "entirely and very easily avoidable," Captain Anton Heinen, former German Zepplin pilot, stated before the naval court of inquiry here today, when he said:

"Does your criticism apply to the handling of the ship on that occasion?" asked Rear Admiral Jones, president of the court.

"It does," Heinen said. "When do you have responsibility?" Heinen paused. "I hold responsibility the man in charge of the ship during the flight," he finally said.

## To Prevent Smuggling

Steps Taken to Curb Liquor and Smuggling Traffic

Ottawa.—Regulations for the suppression of smuggling between Canada and the United States appeared recently by the governments of the two countries, were made public tonight. Provisions are announced to prevent clearance of small motor boats and similar craft, to patrol in Cuba or Mexico, where it is suspected that liquor is intended to be smuggled into the United States or Canada; and for the exchange of information regarding persons engaged in the narcotic traffic.

Estimate of Wheat Crop Higher. Regina, Sask.—Saskatchewan's wheat crop now that threatening is well advanced, is turning out far better than estimates compiled as late as August 12 would indicate.

M. W. Beatty, chairman and president of the Canadian Pacific Railway, in an interview here, placed the crop now being taken off in this province at 240,540,708 bushels.

His estimate in early August was 208,600,000 bushels.

## Communism Rampant in England

New York.—Lady Cowan, president of the British Women's Patriotic League, and wife of Sir Henry Cowan, inter-parliamentary union delegate, said that British Communists have established Sunday Schools throughout England for the purpose of undermining the faith of children in God and the government. Communism, she said, is rampant in England, there is almost any other European country.

## Will Break All Records

Winnipeg.—"Without a doubt all previous records for the movement of grain from the head of the lakes will go by the boards this season before freeze-up," said L. H. Boyd, chairman of the board of grain commissions, who is enroute west to inspect elevators. Mr. Boyd also expects Vancouver to get a good share of the 1925 crop.

## The Argentine Navy

Buenos Aires.—It is reported that the Argentine navy in recent session has given its consent to an expenditure of 75,000,000 gold pesos for armaments and repairs to the Argentine navy. A bill providing this expenditure recently was sent to Congress by President D'Ayala.

## Irish Visitor is Assassinated

Philadelphia.—Richard Mulcahy, minister of defence in the Irish Free State, was struck in the face by one of a group of men and women at Independence Hall, while visiting the building with other members of the inter-parliamentary party. About fifteen arrests were made.

## Canadian Professor Chosen

Toronto.—Prof. W. P. M. Kennedy of the University of Toronto, has been chosen as one of the editors of a monumental eight-volume history of the British empire planned by Cambridge University.

## Child Welfare Conference

Divergent Views on the Question of Juvenile Immigration

Ottawa.—Charges against conditions of juvenile immigration were freely made at the Child Welfare conference here. A rough division of the speakers for and against would place the representatives of the Barnardo Homes, Percy Roberts and those of the department of immigration on one side, while provincial men in charge of delinquent children, social workers, both professional and voluntary, and at least one mental expert ranged themselves against juvenile immigration as it had been conducted. The result was that the Child Welfare Council proposed to conduct an impartial survey of a given number of immigrant grants over a period of years.

## Mitchell Launches Charges

Delivers Verbal Bombshell At U. S. Investigation

Washington.—Condensing all of his previous charges into a verbal bombshell, Col. Wm. Mitchell concluded his testimony before the president's air board by charging the navy with "amateur bungling" of its last three major aeronautical projects.

In rapid succession, the former assistant army chief told the board that incompetency and mismanagement by the navy sent the terrible Shenandoah to its doom on a "propaganda mission," to the middle west, that tropical type planes were being navy fliers with the MacMillan Arctic expedition and that the Hawaiian flight was attempted with a gas supply known to be inadequate.

## OPPOSE MOVE TO RESCIND GRAIN RATES TO WEST

Ottawa.—G. G. McGeer, K.C. counsel for British Columbia, maintained before the railway commission, in opposing the application for rescission of the McKee-Oliver order on westward grain rates, that under that order the railway companies would gain rather than lose. He asserted that the rate for a duplicate haul to Vancouver was 21 cents, while new 2,200-mile haul to Port Williams it was 30 cents. Without going into the point at this time, Mr. McGeer declared that the rate to Vancouver should be 18 cents instead of 21 cents.

The railway companies, Mr. McGeer argued, should be pleased with Vancouver's effort to relieve them of the long unprofitable haul from Alberta to Port Williams. The westward traffic would be more profitable to them. He contended also that removal of discrimination against Vancouver would bring to Canada business now going to Buffalo and to American railways.

The British Columbia counsel declared that the grain trade of Vancouver was being seriously disrupted through not knowing what the rate was to be and he asked that the rate be disarmed at once. If the board could not see its way clear to disarming it, at least a decision, whatever it was, should not be delayed.

## New Canadian Prima Donna

This is Miss Eleanora McEwen, soprano, chosen out of a hundred Canadian songsters for possessing the greatest possibilities for an operatic career. With her is Captain Glen, of the Canadian Pacific, the Melita. Miss McEwen is on her way to Paris to study her art under Madame Palline, world-famed songstress.

The competition in which Miss McEwen was successful, was held recently in Montreal. Voices from all over the Dominion were heard by Madame Donatelli, who adjudicated.

Miss McEwen possesses a soprano voice of great range and power, is a good actress, well educated, speaks French and English fluently and is conversant with Italian and Spanish. Madame Donatelli has expressed the opinion that there is a great career before the singer just brought into the limelight.

Miss McEwen is the daughter of Mr. William McEwen, of Outremont, Montreal. On her father's side the descent is Scotch, and on her mother's it is French. "I hope I shall win medals in Canada," was her farewell words to friends seeing her off on the Melita, which sailed from Montreal.

## MANY CHARGES ARE LAID AGAINST FRUIT CONCERNS

Vancouver.—Eight hundred and sixty-three charges involved in an indictment against 15 counts against 15 fruit firms and 11 individuals in British Columbia, Alberta, Saskatchewan and Manitoba, were handed to the grand jury at the assize court here this afternoon by Mr. Justice D. A. McDonald, presiding judge.

Theft, fraud, falsification of books for purposes of deceit, market juggling and price manipulation, restraint of trade, interference with sound business competition, syndication and general conspiracy to cheat the grower and the consumer, with very little injury to the fruit growing industry in Canada, are contained in the charges.

Trial of the fruit interests of Western Canada in Vancouver will take place at the instigation of the federal department of justice.

The jurisdiction of the court has been extended to cover territory ranging from the coast to Winnipeg, and J. C. Maltzer, Toronto, lawyer, has come to Vancouver to prosecute for the crown. The indictment will remain with the grand jury, it is expected, for several days before a bill is returned.

## Probes Alleged

Communist Plot

Hungary Investigates Report That Leading Official Would Be Assassinated

Budapest.—Hungary.—The police have concluded their investigation of the alleged Communist plot to assassinate leading officials and establish a dictatorship in Hungary, and forwarded their report to the public prosecutor. More than 100 persons were arrested in the city for alleged connection with the plot.

The police now are searching for three Communists, suspected of having brought a large sum of money to the city to carry out their plans. The identity of the state of those arrested have been verified. Photographs of the leaders, together with a detailed report of the plot will be sent to all foreign police authorities.

## Wheat Pool Grows

Regina.—If the present flow of contracts to headquarters is maintained the Saskatchewan Wheat Pool will have ten million acres of wheat under contract by Christmas. The estimated acreage now to wheat in Saskatchewan this year is 13,002,745 acres, while up to the end of September there were 61,001 contracts in the pool covering 8,118,348 acres.

## Dunning Invited To Ottawa

Ottawa, Ont.—Premier King's announcement that after the election when further cabinet re-constitution is to come into the cabinet, conforms to the gossip here for some time. The addition of such men as Hon. Vincent Massey and Mr. Dunning would further strengthen the cabinet already revitalized in recent weeks.

## Australian Treaty Becomes Effective

Canada Gets British Preferential Rates On Certain Articles

Ottawa.—The Australian trade treaty became effective Oct. 1.

It went into effect in Canada and Australia simultaneously, and Canadian dealers in commodities affected by the rates provided for in the new treaty have been notified.

Under the new agreement, Australia gives Canada British preferential rates on certain articles, and, in immediate tariff rates on other commodities.

Canada grants to Australia special rates on a number of articles, including raw wool, and certain cereals. These enter Canada free under the treaty, while under the general tariff they are subject to a duty of three cents a pound.

## Send Greetings To Press Conference

Canadian Publishers Broadcast Message to Melbourne, Australia

Pittsburg.—Canadian greeting to the Imperial Press conference meeting in Melbourne, Australia, were broadcast here by station KDKA by means of a short wave radio. The messages were to be heard at the opening session of the conference owing to the difference in time, by means of loud speakers.

The greetings included messages from Lord Atholstan, owner of the Montreal Star; Hon. Senator White, of the Montreal Gazette; and Hon. P. Du Tremblay, La Presse, Montreal.

## Plot Against King George Is Denied

Scotland Yard Says Report Is Absolutely Without Foundation

London.—Concluding their holiday at Balmoral, King George and Queen Mary have returned to Buckingham Palace.

A published report that an attempt to assassinate the British ruler had been revealed to Scotland Yard was characterized by officials of that organization as a "flat canard." The home officials also told the United Press that the report was "absolutely without foundation."

## Rapid Growth Of Wheat

Time Is 113 Days From Seeding To Laxhead Delivery

Saskatoon.—Just 113 days after he put the seed in the ground, wheat grown on the farm of Bert Clearwater, near here, has been unloaded at Port Arthur. Mr. Clearwater began his seeding operations May 17 of this year and finished threshing August 29. His grain had been unloaded at the laxhead September 7. The wheat, which was sown on spring ploughing, yielded 24½ bushels to the acre. Clearwater maintains this is a new speed record for Canada.

## URGE EXTENSIVE DISSEMINATION OF EMPIRE NEWS

Melbourne, Australia.—After a lengthy discussion, the Imperial Press conference passed a resolution urging the more extensive publication of news of the empire in the press of Great Britain and the British dominions. This resolution was introduced by Sir Hugh Denison, former member of parliament for Adelaide, South Australia, and chairman and managing director of the Sun Newspapers Limited. The resolution was carried unanimously. The resolution stated that all members of the conference pledged themselves to the practical encouragement and increased publication of inter-imperial news. The delegates in the conference listened with great interest to the address by J. H. Woods, of the Calgary Herald, president of the Canadian Press, on the system of coordination of news gathering and distribution of that organization. Mr. Woods suggested that the experience of successful operation of the Canadian Press would be found useful by the newspapers in other parts of the British empire. He described briefly the wire transmission system of the association of which he is president and also efforts made to extend its news gathering service.

Mr. Woods stressed the fact that the Dominion is a duty to another equal, the duty of Great Britain to all the dominions, and announced again that negotiations were in progress for the exchange of more news between Canada and Australia and New Zealand by cable and mail.

## WHAT CANADA HAS ACHIEVED IN THE LEAGUE

Paris.—President Gaston Doumergue received Hon. Raul Dandaneur, Canadian senator and president of the assembly of the League of Nations, at the Palais, and they engaged in conversation for half an hour.

It is understood that when asked by the president what practical result the Canadian representation had achieved at Geneva, Senator Dandaneur replied that it had enabled the Dominion to justify its own adherence to the protocol owing to her past heavy war expenditure and present railway drain. Until then were adjusted, he said, Canada could not consider including further commitments. This attitude, he was appreciated by the participants in the assembly of the league.

The Canadian representation at Geneva, Senator Dandaneur continued, also had enabled the Dominion to work with empire ministers on the international field of diplomacy, each giving the other's point of view. For example, in response to a suggestion that Canada might have done more for imperial defence than she had, it was pointed out that in her past war expenditure the Dominion had incurred future annual taxes to a much greater extent than Great Britain had expected for such defence. Again, the European diplomats considered that Canada's signing of the fisheries treaty at Washington was an indication of drift from empire treaties, which should be signed only by ambassadors with force behind them. The Canadian representation held that in the final analysis, however, the treaty was a result of the governments affected by the treaty. If force were necessary as a background to every treaty, why sign? Force was never in mind when the treaty was made, between North American governments, the senator said.

In conclusion, the Canadian representation at the assembly of the League of Nations had enhanced the position of the Dominion, and this will bring about practical business results, the senator said.

Senator Dandaneur will sail on the Mauretania on Saturday.

## New Postage Stamp Issue

Canadian Stamp of Eight Cent Denomination to Be Available

Ottawa.—A new Canadian stamp of the denomination of eight cents will go into use at once, following a decision reached at the recent international postal conference, held at Stockholm, to the effect that the postage rate on letters between countries of the union should be reduced from 10 to 8 cents.

This stamp is of the same design as the other Canadian postage stamps, and will be blue in color.

The post office department is also about to issue the first of a series of Canadian historical stamps. The new series will be in two numbers—one on the portrait of Baldwin and Lafontaine, and the second containing the portraits of Sir Wilfrid Laurier and Sir John A. Macdonald.

## A Unique Trail

Anchorage, Alaska.—A tree trail 500 miles long, stretches across the bleak Alaskan hills as a tribute to the natives' hospitality. The trail was made by hanging willow poles, which look root and grow into trees. Every now and then along the route native characters and English words denote distances from various camps and villages.

Floods in Tokyo. Tokyo.—Another severe typhoon swept Japan, flooding many thousands of houses in Tokyo and other cities. Several were killed and injured by landslides. The water entered the Japanese Hotel, Tokio, shutting off all the light and water supply temporarily.

## Market Over Hundred Million Bushels

Winnipeg.—More than 100,000,000 bushels of wheat, 80 per cent of which has been raised in Canada, are being stored in the prairie provinces during September, according to railway reports. This is a record movement.

## Turks Are Recruiting

Constantinople.—Four classes of recruits, ranging from the ages of 22 to 28 years, have been called to the colors. The officers of the first and second reserves are to undergo medical examination.

## Roosevelts Cross Himalayas

New York.—Col. Theodore Roosevelt and his brother Corde, on an Alaskan game hunting expedition, have successfully crossed the passes of Himalayas and are in Turkistan.

## Stop and Think!

Canada and the United States  
lose \$500,000,000 per year  
in fire waste. Every day  
there are:

- One hospital fire.
  - Three printing plant fires.
  - Four warehouse fires.
  - Five church fires.
  - Six departmental store fires.
  - Eight public garage fires.
  - Fifteen hotel fires.
  - Three hundred and fifty-nine dwelling fires.
- Fire insurance saves nothing  
it merely distributes the  
loss.  
Fire protection saves some-  
thing—at a high cost of up-  
keep.  
Fire prevention saves all—at  
little or no cost.
